

Easter Trail Clues

1 In Spring time, nature's buzzing!
You can see what's by the trees.
The first clue on your Easter Trail is:
Can you count the bees?

.....

2 Keep looking in the branches,
Follow the trail to see,
A yellow and orange character,
What kind of creature is he?

.....

3 Sir Sydney is a statue,
With daffodils on show,
He likes something with just one wheel,
What is it? Do you know?

.....

4 At Easter time the flowers bloom,
There are strange ones growing near.
They're tall and bright along the fence,
How many flowers are here?

.....

5 Don't just walk past all these trees,
Look closely for the doors.
Who do you think lives here?
Have a guess if you're not sure.

.....

6 They say the Easter Bunny comes
With eggs and fun and cheers,
He's resting in his hideaway,
What colour are his ears?

.....

7 Look into the pond, something yellow and big
Is swimming about, can't you see?
She's only a baby, although she's so huge,
But what kind of creature is she?

.....

8 These ladies eat corn
And they peck at the ground,
But how many hens
Are here to be found?

.....

9 Take care when you climb the steps,
Two eagles guard the way.
They're celebrating Easter time,
But how? Can you say?

.....

10 Woolly sheep eat lots of grass,
They often stand quite still.
So can you count them? Have a go!
How many are on the hill?

.....

11 Can you see a giant nest,
Five eggs with one on top?
The blue one has a big pink bow;
What colour are the spots?

.....

12 Three things were found in a chimney,
Nearly 400 years there they lay,
Candlesticks, shoes, and some chickens,
But why were they hidden away?
**(Hint: To find what you seek,
in Lauderdale House, you should peek!)**
